

A full line of performers

BÖWE BELL + HOWELL understands the critical importance of your business records and the need to have a reliable scanner that can process your documents quickly, efficiently and accurately every time. Whatever your business needs to scan — from forms to photos, applications to affidavits, birth certificates to account statements, maps, blueprints and more — BÖWE BELL + HOWELL has a full line of fast, dependable and affordable document scanners that can meet your unique needs and work environment. Converting hard copies into digital files has never been easier.

Throughout our scanner line you will find innovative feature sets and world-class engineering that deliver the best value and lowest total cost of scanning in the industry. Moreover, our full line of products affords you a full range of choices — color, bitonal or grayscale; sheetfed or flatbed; entry-level to high-volume production or wide format — to improve your workflow and optimize your scanning efficiency.

To find out how we can help you make the right choices for your scanning solution, call our scanning experts. In the U.S. call 1.800.SCAN.494.

Internationally call +1.847.675.7600 or visit us online at www.bbhscanners.com.
